

GUNAAL M

SOFTWARE DEVELOPER

Chennai, India | +91 9360376781 | gunaal.mah@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE

Software Developer with 2 years of professional experience in software engineering and quality engineering. Strong hands-on knowledge of Java, Spring Boot, REST APIs, React, JavaScript, HTML, CSS and Tailwind CSS, with additional experience in Selenium, Playwright and API testing. Interested in building reliable web applications, backend services and AI-enabled solutions using LLMs, RAG, LangChain and bots. Experienced in Agile collaboration, CI/CD environments and delivering maintainable, testable software.

TECHNICAL SKILLS

Frontend	React, JavaScript, HTML5, CSS3, Tailwind CSS
Backend	Java, Spring Boot, REST APIs, RESTful Web Services
AI / GenAI	LLM, RAG, LangChain, GitHub Copilot
Testing	Playwright, Selenium, API Testing, Postman, Rest Assured, TestNG, Cucumber, JUnit
Data	SQL, Oracle DB
Engineering Tools	Git, Jenkins, Maven, Jira, CI/CD, AWS
Methodology	Agile
Programming Languages	Java, JavaScript, TypeScript, Python

PROFESSIONAL EXPERIENCE

ADM Analyst — Tata Consultancy Services (TCS) | Sep 2024 – Oct 2026

- Developed and maintained Playwright automation using JavaScript, supporting regression coverage and release confidence.
- Worked with REST APIs and Postman to validate integrations, request/response behavior and data integrity.
- Collaborated with stakeholders and cross-functional teams on requirements, functional analysis and automation opportunities.
- Integrated automated test execution with Jenkins CI/CD pipelines and participate in peer reviews.
- Analyzed coverage gaps and contribute to defect triage and resolution using JIRA.

PROJECTS

GEMINI CLONE - Developed a Gemini AI chatbot clone using React.js and Gemini API with responsive UI, real-time responses, and API error handling.

Expense Tracker - Developed and deployed a fully functional Expense Tracker using React.js, enabling users to manage income and expenses, track transactions, and view financial summaries through a responsive and user-friendly interface.

AI-Assisted Retail Return Validation System — Developed an AI-enabled workflow using LLMs, RAG, LangChain, document processing, SQLite and Streamlit for return-document validation, missing-document detection, AI-generated customer reminders and reviewer summaries.

Library Management System - Developed a full-stack Library Management System using React.js, Java, Spring Boot, and MySQL, implementing book management, member management, issue/return tracking, and RESTful APIs. Integrated the React frontend with Spring Boot backend and implemented validation, exception handling, and database operations using JPA/Hibernate.

EDUCATION

Bachelor of Engineering, Electrical and Electronics Engineering

Sri Venkateswara College of Engineering, Chennai, India | 2020–2024 | CGPA: 8.46

RECOGNITION

Best Performer 2025 — Tata Consultancy Services
